

Arizona State Treasury
Investment Policy Statement
Jeff DeWit, State Treasurer

I. OVERVIEW

It is the investment policy of the Arizona State Treasurer and his office (hereinafter referred to as "the Treasurer") to maintain the safety of principal, maintain liquidity to meet cash flow needs, and provide competitive investment returns. The Treasurer will strive to invest with the judgment and care that prudent individuals would exercise, in the exercise of their own affairs.

The Treasurer manages investments for three main groups. The beneficiaries of the State Land Trust; Local Governments and Political Subdivisions of the State, and for the State of Arizona and its respective agencies. The length of investments fall into three categories: short-term \$1 NAV funds with a Weighted Average Maturity of less than 90 days; medium term bond funds of one to five years in duration; and endowment funds, which are invested in perpetuity.

Performance of each type of investment pool is measured in either monthly yield for short and medium term funds or on a total return basis for endowment funds.

INVESTMENTS NOT GUARANTEED

Neither the Treasurer nor the State of Arizona makes any guarantees on the investments it purchases on behalf of participants in any of the investment pools. Participants of investment pools own shares in the pool, except where noted in section VI. The value of a share in a pool is determined by dividing the total market value of the pool by the number of shares outstanding. The owners of share(s) are entitled to their proportional share of principal of bonds in the pool (at any point in time) and interest (as determined by their weighted average daily balance of the pool).

II. AUTHORITY

The Treasurer follows [A.R.S. Title 35, Chapter 2, Article 2.0](#), and other investment guidelines mandated by statute. The Treasurer, however, does not determine the legal capacity or statutory investment restrictions that will apply to specific depositors (such as investment restrictions set by statute, regulation or local charter). Any political subdivision of the state depositing monies with the Treasurer must assure itself that investments contained in the applicable pool comply with the subdivision's specific investment authority. In addition, the Treasurer does not limit or restrict yield on pools unless specifically mentioned herein. Depositors wishing to restrict yield for purposes of the Internal Revenue Service's Arbitrage Bond Regulations ([Treasury Regulation Section 1.148-1 et seq.](#)) must make their own determinations as to whether any designated pool deposit meets any restricted yield obligation pertaining to the funds deposited.

III. INVESTMENT OBJECTIVES

1. FIXED INCOME POOLS

Safety: Safety of principal is the foremost objective of the investment program. The Treasurer will seek to ensure preservation of principal in all fixed income pools.

Liquidity: The fixed income investment pools and funds will remain sufficiently liquid to enable pools and funds to meet all operating requirements that might be reasonably anticipated.

Yield/Return on Investment: The investment pools and funds shall be managed with the objective of attaining a competitive rate of return given the constraints of the aforementioned safety and liquidity objectives.

2. ENDOWMENTS

The Treasurer and the State Board of Investment (BOI) in their capacity as trustees, pursuant to [Article X, Section 7](#), of the Constitution of Arizona and [A.R.S. 35-314.01](#) have established an Endowment for the beneficiaries of the Arizona State Trust Lands. The proceeds from the permanent sales of Trust Lands are deposited into the Endowment as well as any gifts or donations to the Trust.

The Treasurer and BOI have established two fixed income and three equity investment pools for the management of the endowment. The allocation to equities shall be capped at 60% of cost, consistent with the requirements of [Article X, Section 7 C](#) of the Arizona Constitution.

The benchmark for the long term fixed income pool is the Citigroup Broad Investment Grade (BIG) Index. The benchmark for the short term fixed income pool is the LGIP Pool 5.

The benchmarks for the equity pools are the S&P 500 Large-Cap Index, the S&P 400 Mid-Cap Index, and the S&P 600 Small-Cap Index.

The Endowment shall be rebalanced monthly based upon a +/- 2.5% market value trigger as listed in Table 1. The Treasurer will rebalance the Endowment in accordance with the Permanent Land Endowment Trust Fund Procedures created by the Investment Risk Management Committee.

3. DIVERSIFICATION

It is the policy of the Treasurer to diversify the investment portfolio to minimize losses due to various circumstances. The circumstances include, but are not limited to; issuer defaults, market price changes, non-earning assets, technical complications leading to temporary lack of liquidity, risks resulting from an over-concentration of assets in a specific maturity, a specific issuer, a specific geographical distribution, or a specific class of securities.

A. Debt Concentration Limit;

Not more than five percent (5%) of the total of each pool or fund (defined as five percent of the prior month's ending market value on the date purchased), or five percent of the debt issues outstanding, whichever is less, shall be invested in debt of a single corporation and its subsidiaries/affiliates. The diversification policy, as it relates to the maximum (5%) investment with a single issuer, applies to Separately Managed Accounts and Investment Pools 3, 5, 10, 12, 16 and 500. For Pools 205 and 123 any single issuer cannot exceed 5% of the combined balances as defined above. Securities issued by the federal government or its agencies, sponsored agencies, corporations, sponsored corporations or instrumentalities are exempted from this provision. Purchases of Treasurer Warrant Notes for Pool 3 are also exempt from this policy, provided the maximum amount of notes shall not exceed 50% of the market value of pool 3 based on prior day close of business. Purchases of bonds issued by an agency of the State of Arizona and pre-refunded municipal bonds issued by any entity that are invested in obligations issued or guaranteed by the United States or any of its agencies, sponsored agencies, corporations, sponsored corporations or instrumentalities are also exempt from the 5% issuer limit.

4. PORTFOLIO MANAGEMENT

Following the primary objective of preservation of capital, investments shall be actively managed to take advantage of market opportunities. In so doing, negotiable securities may be sold prior to their maturity to provide liquid funds as needed for cash flow purposes, to enhance portfolio returns, or to restructure maturities to increase yield and/or reduce risk.

5. SEPARATELY MANAGED ACCOUNTS

The Treasurer may offer separately managed accounts for those clients who meet the terms set by the Board of Investment. The incremental costs for these accounts shall be paid for out of earnings of the accounts.
