VERIFICATION OF COVERAGE: Contractor shall furnish the State of Arizona with certificates of insurance (valid ACORD form or equivalent approved by the State of Arizona) evidencing that Contractor has the insurance as required by this Contract. An authorized representative of the insurer shall sign the certificates.
- All such certificates of insurance and policy endorsements must be received by the State before work commences. The State's receipt of any certificates of insurance or policy endorsements that do not comply with this written agreement shall not waive or otherwise affect the requirements of this agreement.
 - Each insurance policy required by this Contract must be in effect at, or prior to, commencement of work under this Contract. Failure to maintain the insurance policies as required by this Contract, or to provide evidence of renewal, is a material breach of contract.
 - All such certificates required by this Contract shall be sent directly to the Department. The State of Arizona project/contract number and project description shall be noted on the certificate of insurance. The State of Arizona reserves the right to require complete, certified copies of all insurance policies required by this Contract at any time.
14. SUBCONTRACTORS: Contractors' certificate(s) shall include all subcontractors as insured under its policies or Contractor shall be responsible for ensuring and/or verifying that all subcontractors have valid and collectable insurance as evidenced by the certificates of insurance and endorsements for each subcontractor. All coverages for subcontractors shall be subject to the minimum Insurance Requirements identified above. The Department

reserves the right to require, at any time throughout the life of this contract, proof from the Contractor that its subcontractors have the required coverage.

15. APPROVAL AND MODIFICATIONS: The Contracting Agency, in consultation with State Risk, reserves the right to review or make modifications to the insurance limits, required coverages, or endorsements throughout the life of this contract, as deemed necessary. Such action will not require a formal Contract amendment but may be made by administrative action.
16. EXCEPTIONS: In the event the Contractor or subcontractor(s) is/are a public entity, then the Insurance Requirements shall not apply. Such public entity shall provide a Certificate of self-insurance. If the Contractor or subcontractor(s) is/are a State of Arizona agency, board, commission, or university, none of the above shall apply.
17. INDEMNIFICATION: To the fullest extent permitted by law, Contractor shall defend, indemnify, and hold harmless the State of Arizona, and its departments, agencies, boards, commissions, universities, officers, officials, agents, and employees (hereinafter referred to as "Indemnitee") from and against any and all claims, actions, liabilities, damages, losses, or expenses (including court costs, attorneys' fees, and costs of claim processing, investigation and litigation) (hereinafter referred to as "Claims") for bodily injury or personal injury (including death), or loss or damage to tangible or intangible property caused, or alleged to be caused, in whole or in part, by the negligent or willful acts or omissions of Contractor or any of its owners, officers, directors, agents, employees or subcontractors. This indemnity includes any claim or amount arising out of, or recovered under, the Workers' Compensation Law or arising out of the failure of such Contractor to conform to any federal, state, or local law, statute, ordinance, rule, regulation, or court decree. It is the specific intention of the parties that the Indemnitee shall, in all instances, except for Claims arising solely from the negligent or willful acts or omissions of the Indemnitee, be indemnified by Contractor from and against any and all claims. It is agreed that Contractor will be responsible for primary loss investigation, defense, and judgement costs where this indemnification is applicable. In consideration of the award of this contract, the Contractor agrees to waive all rights of subrogation against the State of, its officers, officials, agents, and employees for losses arising from the work performed by the Contractor for the State of Arizona. This indemnification will survive the termination of the above listed contract with the Contractor.

This indemnity shall not apply if the Contractor or subcontractor(s) is/are an agency, board, commission or university of the State of Arizona.

18. If the professional liability insurance required by this Contract is written on a claims-made basis, Contractor warrants that any retroactive date under the policy shall precede the effective date of this Contract; and that either continuous coverage will be maintained, or

an extended discovery period will be exercised for a period of two (2) years beginning at the time work under this Contract is completed.

19. The policy shall cover professional misconduct or lack of ordinary skill for those positions defined in the Scope of Service of this contract.

 - a. Key succession and performance planning if there is a sudden significant decrease in contractor's workforce.
 - b. Alternative methods to ensure there are products in the supply chain.

-
- c. An up-to-date list of company contacts and organizational chart.
2. In the event of a pandemic, as declared by the Governor of Arizona, U.S. Government or the World Health Organization, which makes performance of any term under this contract impossible or impracticable, the State shall have the following rights:
 - a. After the official declaration of a pandemic, the State may temporarily void the contract(s) in whole or specific sections if the contractor cannot perform to the standards agreed upon in the initial terms.
 - b. The State shall not incur any liability if a pandemic is declared, and emergency procurements are authorized pursuant to § 41-2537 of the Arizona Procurement Code.

ARIZONA RISK AND AUTHORIZATION MANAGEMENT PROGRAM (AZRAMP)

Security Standards

Security of the State's systems and data are of "UTMOST" importance to the State. In order to assure security from a personnel and operations perspective, Contractor shall comply with:

All requirements, in their entirety, as described in the statewide enterprise architecture, and statewide Information Technology security policies, standards and procedures:

<https://aset.az.gov/resources/policies-standards-and-procedures>.

In some instances, Contractor personnel will only be allowed inside of a State facility if accompanied by a State escort. This is applicable in the Correctional facilities, Public Safety facilities, State Lottery facilities, or other facilities as designated by the State.

Security Framework

The State of Arizona information security policies and standards follow the National Institute

of Standards and Technology (NIST) Cyber Security Framework (CSF) and NIST 800-53 revision 5. The State has established a process to assess risk associated with storing, processing and/or transmitting State of Arizona data with external, non-State of Arizona, entities. The Arizona Risk and Authorization Management Program (AZRamp) was developed to ensure State and contractors meet these requirements. All contractors responding to State solicitations must successfully complete the AZRamp risk assessment based upon the data classification involved as determined by the data owner and Arizona Strategic Enterprise Technology (ASET) Department. Failure to successfully complete AZRamp assessment will be deemed as breach of contract. Contractor attests too, understands and agrees no other forms of Cyber Security Frameworks (CSF), Trust Documents, Self-Attestations, to include ISO/IEC, SOC 2 & 3, PCI, or HIPAA reports of compliance are recognized nor accepted by State. NIST SP 800-53 Rev. 5 Security and Privacy Guidelines can be located at:

<https://csrc.nist.gov/publications/detail/sp/800-53/rev-5/final>

Contractor shall comply with all applicable security requirements including but not limited to:

- Arizona Risk and Authorization Management Program (AZRamp):
 - Submit with your solicitation package a completed Arizona Baseline Infrastructure Security Controls assessment spreadsheet as found at: <https://aset.az.gov/sites/default/files/Arizona%20Baseline%20Security%20Controls%20Pre-Requirement%20.xls> and mitigate gaps or install compensating controls for any issues of concern identified by State.
 - Contractor is required to provide Information Security documentation for the AZRamp assessment to include System Security Plan (SSP), or Written Information Security Programs (WISP) and supporting documentation for review of the assessment.
 - Note: The State of Arizona seeks a partnership with our supporting vendors, therefore, Non-Disclosure Agreements (NDA) for release to review submitted SSP's and/or WISP 's will not be considered. Procedures for submission of documents considered Confidential/Proprietary are identified within this RFP. Special secure transfer of documents related to this AZRamp review process can be made by contacting: AsetAssurance@azdoa.gov to make special arrangements for the transfer of these documents.
 - All respondents will complete and submit with your solicitation package an unedited and signed State of Arizona Health Insurance Portability and Accountability Act (HIPAA) Business Associate Addendum (BAA), if required by this RFP.
 - If selected for award, all awards are contingent on the successful completion of the AZRamp 125 Low Impact (public information) or the AZRamp 325 Moderate (Confidential, PII, or PHI) Impact Control spreadsheet titled "Arizona

Infrastructure Security Controls 2017 (Excel)” to be determined by the Enterprise Security, Privacy & Risk Compliance team. Low (Column E) and Moderate (Column F) Impact controls spreadsheet can be located here:

https://aset.az.gov/sites/default/files/Arizona%20Baseline%20Security%20Controls%202017_v2.xls.

- State reserves the right to conduct risk assessments, vulnerability assessments, black-box penetration tests or hire a third party to conduct risk assessments, vulnerability assessments, and black-box penetration tests of the Contractor’s environment. Contractor will be alerted in advance and arrangements made for an agreeable time. Contractor shall respond to all serious flaws discovered by providing an acceptable timeframe to resolve the issue and/or implement a compensating control(s).
- Contractor will submit copies of system logs from Contractor’s environment to State of AZ security team upon request to be added to the State SIEM (Security Information Event Monitor) or IDS (Intrusion Detection System).
- The ideal vendor solution will be contained within a Federal Risk and Authorization Management Program (FedRAMP), government-rated, single tenant cloud compartment. This preferred architecture provides protection during storage, processing, and/or transmission of sensitive or regulated State data. Information about FedRAMP Authorized SaaS, PaaS or IaaS platforms can be located at: <https://marketplace.fedramp.gov/#/products?sort=productName>.

DATA AND INFORMATION HANDLING:

This section applies to the extent the Work includes handling of any (1) State’s proprietary and sensitive data or (2) confidential or access-restricted information obtained from State or from others at State’s behest.

Data Protection and Confidentiality of Information. Contractor warrants that it will establish and maintain procedures and controls acceptable to State for ensuring that State’s proprietary and sensitive data is protected from unauthorized access and information obtained from State or others in performance of its contractual duties is not mishandled, misused, or inappropriately released or disclosed. For purposes of this paragraph, all data created by Contractor in any way related to the Contract, provided to Contractor by State, or prepared by others for State are proprietary to State, and all information by those same avenues is State’s confidential information. To comply with the foregoing warrant:

1. Contractor shall: (a) notify State immediately of any unauthorized access or inappropriate disclosures, whether stemming from an external security breach, internal breach, system failure, or procedural lapse; (b) cooperate with State to identify the source or cause and respond to each unauthorized access or inappropriate disclosure; and (c) notify State promptly of any security threat that could result in unauthorized access or inappropriate disclosures; and
2. Contractor shall not: (a) release any such data or allow it to be released or divulge any such information to anyone other than its employees or officers as needed for each person’s individual performance of his or her duties under the Contract, unless State has agreed otherwise in advance and in writing; or (b) respond to any requests it receives from a third party for such data or information, and instead route all such requests to State’s designated representative.

Personally Identifiable Information. Without limiting the generality of this paragraph, Contractor warrants that it will protect any personally identifiable information (“PII”) belonging to State’s employees or other contractors or members of the general public that it receives from State or otherwise acquires in its performance under the Contract. For purposes of this paragraph:

1. PII has the meaning given in the [federal] Office of Management and Budget (OMB) Memorandum M-17-12 Preparing for and Responding to a Breach of Personally Identifiable Information, January 3, 2017; and
2. “Protect” means taking measures to safeguard personally identifiable information and prevent its breach that are functionally equivalent to those called for in that OMB memorandum and elaborated on in the [federal] General Services Administration (GSA) Directive CIO P 2180.1 GSA Rules of Behavior for Handling Personally Identifiable Information.

Protected Health Information. Contractor warrants that, to the extent performance under Contract involves individually identifiable health information (referred to hereinafter as protected health information (“PHI”) and electronic PHI (“ePHI”) as defined in the Privacy Rule referred to below), it:

- a. is familiar with and will comply with the applicable aspects of the following collective regulatory requirements regarding patient information privacy protection: (a) the “Privacy Rule” in CFR 45 Part 160 and Part 164 pursuant to the Health Insurance Portability and Accountability Act (“HIPAA”) of 1996; (b) Arizona laws, rules, and regulations applicable to PHI/ePHI that are not preempted by CFR45-160(B) or the Employee Retirement Income Security Act of 1974 (“ERISA”) as amended; and (c) State’s current and published PHI/ePHI privacy and security policies and procedures;
- b. will cooperate with State in the course of performing under the Contract so that both State and Contractor stay in compliance with the requirements in (1) above; and
- c. will sign any documents that are reasonably necessary to keep both State and Contractor in compliance with the requirements in (1) above, in particular “Business Associate Agreements” in accordance with the Privacy Rule.

INFORMATION TECHNOLOGY WORK: this section applies to any Invitation for Bids, Request for Proposals, or Request for Quotations for "Information Technology," as defined In A.R.S. §18-101 -6 “...all computerized and auxiliary automated information processing, telecommunications and related technology, including hardware, software, vendor support and related services, equipment and projects,” if and to the extent that the Work is or includes Information Technology.

Background Checks. Each Contractor's personnel who is an applicant for an information technology position must undergo the security clearance and background check procedure, which includes fingerprinting, as required by A.R.S. §41-710. Contractor shall obtain and pay for the security clearance and background check. Contractor personnel who will have

administrator privileges on a State network must additionally provide identity and address verification and undergo State-specified training for unescorted access, confidentiality, privacy, and data security.

Information Access

1. SYSTEM MEASURES. Contractor shall employ appropriate system management and maintenance, fraud prevention and detection, and encryption application and tools to any systems or networks containing or transmitting State's proprietary data or confidential information.
2. INDIVIDUAL MEASURES. Contractor personnel shall comply with applicable State policies and procedures regarding data access, privacy, and security, including prohibitions on remote access and obtaining and maintaining access identifications (IDs) and passwords. Contractor is responsible to State for ensuring that any State access IDs and passwords are used only by the person to whom they were issued. Contractor shall ensure that personnel are only provided the minimum only such level of access necessary to perform his or duties. Contractor shall on request, provide a current register of the access IDs and passwords and corresponding access levels currently assigned to its personnel.
3. ACCESS CONTROL. Contractor is responsible to State for ensuring that hardware, software, data, information, and that has been provided by State or belongs to or is in the custody of State and is accessed or accessible by Contractor personnel is only used in connection with carrying out the Work and is never commercially exploited in any manner whatsoever not expressly permitted under the Contract. State may restrict access of Contractor personnel, or instruct Contractor to restrict their access, if in its determination the requirements of this subparagraph are not being met.

Pass-Through Indemnity

1. INDEMNITY FROM THIRD PARTY. For computer hardware or software included in the Work as discrete units that were manufactured or developed solely by a third party, Contractor may satisfy its indemnification obligations under the Contract by, to the extent permissible by law, passing through to State such indemnity as it receives from the third-party source (each a "Pass-Through Indemnity") and cooperating with State in enforcing that indemnity. If the third party fails to honor its Pass-Through Indemnity, or if a Pass-Through Indemnity is insufficient to indemnify State Indemnitees to the extent and degree, Contractor is required to do by the Uniform Terms and Conditions, then Contractor shall indemnify, defend and hold harmless State Indemnitees to the extent the Pass-Through Indemnity does not.

-
2. NOTIFY OF CLAIMS. State shall notify Contractor promptly of any claim to which a Pass-Through Indemnity might apply. Contractor, with reasonable consultation from State, shall control of the defense of any action on any claim to which a Pass-Through Indemnity applies, including negotiations for settlement or compromise, provided that:
 - a. State reserves the right to elect to participate in the action at its own expense;
 - b. State reserves the right to approve or reject any settlement or compromise on reasonable grounds and if done so timely; and
 - c. State shall in any case cooperate in the defense and any related settlement negotiations.

Systems and Controls: In consideration for State having agreed to permit Pass-Through Indemnities in lieu of direct indemnity, Contractor agrees to establish and keep in place systems and controls appropriate to ensure that State funds under this Contract are not knowingly used for the acquisition, operation, or maintenance of Materials or Services in violation of intellectual property laws or a third party's intellectual property rights.

Redress of Infringement

1. REPLACE, LICENSE, OR MODIFY. If Contractor becomes aware that any Materials or Services infringe, or are likely to be infringing, on any third party's intellectual property rights, then Contractor shall, at its sole cost and expense and in consultation with State, either:
 - a. replace any infringing items with non-infringing ones;
 - b. obtain for State the right to continue using the infringing items; or
 - c. modify the infringing items so that they become non-infringing, so long as they continue to function as specified following the modification.
2. CANCELLATION OPTION. In every case listed above, if none of those options can reasonably be accomplished, or if the continued use of the infringing items is impracticable, State may cancel the relevant Order or terminate the Contract, and Contractor shall take back the infringing items. If State does cancel the Order or terminate the Contract, Contractor shall refund to State:
 - a. for any software created for State under the Contract, the amount State paid to Contractor for creating it;
 - b. for all other Materials, the net book value of the product provided according to generally accepted accounting principles; and
 - c. for Services, the amount paid by State or an amount equal to 12 (twelve) months of charges, whichever is less.
3. EXCEPTIONS. Contractor will not be liable for any claim of infringement based solely on any of the following by a State Indemnitee:
 - a. modification or use of Materials other than as contemplated by the Contract or

-
- expressly authorized or proposed by a Contractor Indemnitor;
 - b. operation of Materials with any operating software other than that supplied by Contractor or authorized or proposed by a Contractor Indemnitor; or
 - c. combination or use with other products in a manner not contemplated by the Contract or expressly authorized or proposed by a Contractor Indemnitor.

First Party Liability Limitation

1. LIMIT. Subject to the provisos that follow below and unless stated otherwise in the Special Terms and Conditions, State's and Contractor's respective first party liability arising from or related to the Contract is limited to the greater of \$1,000,000 (one million dollars) or 3 (three) times the purchase price of the specific Materials or Services giving rise to the claim.
2. PROVISOS. This paragraph limits liability for first party direct, indirect, incidental, special, punitive, and consequential damages relating to the Work regardless of the legal theory under which the liability is asserted. This paragraph does not limit liability arising from any:
 - a. Indemnified Claim against which Contractor has indemnified State Indemnitees
 - b. claim against which Contractor has indemnified State Indemnitees; or
 - c. provision of the Contract calling for liquidated damages or specifying amounts or percentages as being at-risk or subject to deduction for performance deficiencies.
3. PURCHASE PRICE DETERMINATION. If the Contract is for a single-agency and a single Order (or if no Order applies), then "purchase price" in Subparagraph 14.7.1 above means the aggregate Contract price current at the time of Contract expiration or earlier termination, including all Contract Amendments having an effect on the aggregate price through that date. In all other cases, "purchase price" above means the total price of the Order for the specific equipment, software, or services giving rise to the claim, and therefore a separate limit will apply to each Order.
4. NO EFFECT ON INSURANCE. This paragraph does not modify the required coverage limits, terms, and conditions of, or any insured's ability to claim against any insurance that Contractor is required by the Contract to provide, and Contractor shall obtain express endorsements that it does not.

Information Technology Warranty

1. SPECIFIED DESIGN. Where the Scope of Work for information technology, Work provides a detailed design specification or sets out specific performance requirements, Contractor warrants that the Work will provide all functionality material to the intended use stated in the Contract, provided that, the foregoing warranty does not extend to any portions of

the Materials that are:

- a. modified or altered by anyone not authorized by Contractor to do so;
 - b. maintained in a way inconsistent to any applicable manufacturer recommendations;
or
 - c. operated in a manner not within its intended use or environment.
2. COTS SOFTWARE. With respect to Materials provided under the Contract that are commercial-off-the-shelf (COTS) software, Contractor warrants that:
- a. to the extent possible, it will test the software before delivery using commercially available virus detection software conforming to current industry standards;
 - b. the COTS software will, to the best of its knowledge, at the time of delivery be free of viruses, backdoors, worms, spyware, malware, and other malicious code that could hamper performance, collect unlawfully any personally identifiable information, or prevent products from performing as required by the Contract; and
 - c. it will provide a new or clean install of any COTS software that State has reason to believe contains harmful code.
3. PAYMENT HAS NO EFFECT. The warranties in this paragraph are not affected by State's inspection, testing, or payment.

Specific Remedies. Unless expressly stated otherwise elsewhere in the Contract, State's remedy for breach of warranty includes, at State's discretion, re-performance, repair, replacement, or refund of any amounts paid by State for the nonconforming Work, plus (in every case) Contractor's payment of State's additional, documented, and reasonable costs to procure materials or services equivalent in function, capability, and performance that was first called for. For clarification of intent, the foregoing obligations are limited by the limitation of liability. If none of the foregoing options can reasonably be affected, or if the use of the materials by State is made impractical by the nonconformance, then State may seek any remedy available to it under law.

Section 508 Compliance. Unless specifically authorized in the Contract, any electronic or information technology offered to the State of Arizona under this Contract shall comply with A.R.S. §18-131 and §18-132 and Section 508 of the Rehabilitation Act of 1973, which requires that employees and members of the public shall have access to and use of information technology that is comparable to the access and use by employees and members of the public who are not individuals with disabilities.

Cloud Applications. The following are required for Contractor of any cloud solution that hosts State data outside of the State's network or transmits and/or receives State data.

1. Submit a completed Arizona Baseline Infrastructure Security Controls assessment spreadsheet as found at: <https://aset.az.gov/resources/policies-standards-and->

[procedures](#), and mitigate or install compensating controls for any issues of concern identified by State. Contractor is required to provide any requested documentation supporting the review of the assessment. The assessment shall be re-validated on a minimum annual basis.

2. State reserves the right to conduct penetration tests or hire a third party to conduct penetration tests of the Contractor's application. Contractor will be alerted in advance and arrangements made for an agreeable time. Contractor shall respond to all serious flaws discovered by providing an acceptable timeframe to resolve the issue and/or implement a compensating control.
3. Contractor must submit a copy of system logs from the cloud system to the State of Arizona security team on a regular basis to be added to the State SIEM (Security Information Event Monitor) or IDS (Intrusion Detection System).
4. Contractor must employ a government-rated cloud compartment to better protect sensitive or regulated State data.

FINANCIAL SOUNDNESS: The State must be notified in writing of any substantial change in the Offeror's financial condition during the term of the Contract. Failure to notify the State of such a substantial change in financial condition will be sufficient grounds for terminating the Contract.

EXHIBITS AND ATTACHMENTS

EXHIBIT A: PRICING

Respondent must provide a fee schedule for the card account solution, clearly showing the fees to be charged to the State, and any other fees associated with the use of the card.

EXHIBIT B: SCOPE OF WORK

The bidder must present a written narrative which demonstrates the method or manner in which the bidder proposes to satisfy the requirements of the Scope of Work. The language of the narrative should be straight forward and limited to fact, solutions to problems and plans of proposed action. The written narrative should include specific responses to the items listed below in addition to addressing the requirements contained in the Scope of Work.

The Arizona State Treasurer's Office (ASTO) is responsible for providing various banking services to all agencies of the State of Arizona. Most of these services are provided through a central service bank contract and a central merchant services account contract. From time to time, certain programs operated by state agencies require alternative banking solutions to enhance customer services provided by a state agency. This RFP is searching for an alternative banking service for The Arizona Department of Corrections (ADC) Inmate Release Card Program.

The card account solution must allow for funding to the card/solution/account regardless of whether the card account solution has been activated by the holder.

Other State agency programs may be added at the State's sole discretion and if additional programs are added in the future.

Inmate Accounts for the Arizona Department of Corrections, Rehabilitation and Reentry.

Currently, upon release from the ADCRR, an inmate is provided a debit card that contains the inmate's balance of funds. The ASTO is seeking solutions that would provide released inmates with a card account solution that would;

- The card account solution must be reloadable and accessible on National and Regional ATM networks throughout the United States.
- The card account solution must allow for cash withdrawals on National and Regional ATM networks and must allow for Point of Sale (POS) transactions at other merchants. The solution should allow for unlimited/no maximum cash withdrawal. The solution must allow for balance inquiry via "teller" or online 24/7 at no cost to the card holder.
- The card must be available from stock to be issued at the agency's location and allow for the immediate assignment and loading of funds. Any other solution must also be available to the agency to create online for immediate assignment.
- The card account solution must give ADCRR the ability to add additional funds to the card for up to six (6) months after the card has been activated.

It is highly preferred that there are no fees charged to the cardholder to activate or use the card. It is acceptable for a nominal fee charged to the cardholder if they want to add additional funds to the card.
