Arizona Treasurer Kimberly Yee's Statement on ESA Cancellation

“Governor Hobbs has just denied thousands of Arizona kids access to kindergarten through this politically driven and belligerent decision. As has become the norm for this governor, my office first learned of her action through a press release prior to receiving the letter, and we have yet to receive any communication from the Governor or her team on this matter other than the letter. Our legal team is currently reviewing the lawfulness of the governor’s move and determining next steps.”

“It is clear Governor Hobbs does not care about what is best for Arizona kids or respect the rights of parents to determine the best environment to educate their child. Instead, she is using these children as pawns in a desperate and transparent attempt to win back support from union bosses and her ultra-progressive base. Educational choice is the civil rights issue of our time, and unfortunately, Governor Hobbs thinks she knows better than parents. I fundamentally disagree, and so do Arizona families.”
