OFFICE OF THE
ARIZONA STATE TREASURER

KIMBERLY YEE
TREASURER

October 31, 2023

The Honorable Katie Hobbs
Governor, State of Arizona
1700 West Washington Street
Phoenix, AZ 85007

Dear Governor Hobbs:

It is a pleasure to submit the Treasurer of Arizona's Annual Audited Financial Statements for the fiscal year ending June 30, 2023.

During the past fiscal year, we have continued to earn a profit for both state and local taxpayers. In Fiscal Year 2023, we distributed investment earnings of \$1.2 billion, a 152.0% increase from FY 2022.

Highlights of the Treasurer's Office for the fiscal year:

- Fair value of combined investments totaled \$31.2 billion versus \$30.2 billion in FY 2022.
- Fair value of all Endowment Funds totaled \$7.9 billion and investment earnings of \$432.8 million were distributed to beneficiaries, an increase of 8.2% from FY 2022.
- Fair value of State Agency and Local Government pools totaled \$23.3 billion, a 1.0% increase from the prior year with \$783.1 million distributed to pool participants, an 848.1% increase from FY 2022.
- The Land Endowment Fund had a total return of 11.10% for the fiscal year, and compares to its 3-year return of 8.71%, 10-year return of 8.06%, and inception-to-date return of 6.67%.
- Total distributions were \$20.2 billion.

It is an honor and a privilege to serve the citizens of Arizona as State Treasurer.

Sincerely,

The Honorable Kimberly Yee
Treasurer of Arizona

Independent auditors' report

Members of the Arizona State Legislature

The Honorable Kimberly Yee
Office of the Arizona State Treasurer

Report on the audit of the financial statements

Opinions

We have audited the accompanying financial statements of the investment pools and individual investment account of the Office of the Arizona State Treasurer as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Office of the Arizona State Treasurer's financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the investment pools and individual investment account of the Office of the Arizona State Treasurer as of June 30, 2023, and the respective changes in financial position of its external investment pools and individual investment account for the year then ended in accordance with U.S. generally accepted accounting principles.

Basis for opinions

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the U.S. Comptroller General. Our responsibilities under those standards are further described in the auditors' responsibilities for the audit of the financial statements section of our report. We are required to be independent of the Office of the Arizona State Treasurer and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of matter

As discussed in Note 1 to the financial statements, for the year ended June 30, 2023, the Office of the Arizona State Treasurer's financial statements are intended to present the financial position and the changes in financial position of only that portion of the State of Arizona's assets that is attributable to the Office of the Arizona State Treasurer's transactions. They do not purport to, and do not, present fairly the financial position of the State of Arizona as of June 30, 2023, and the changes in financial position of the State of Arizona for the year then ended in conformity with U.S. generally accepted accounting principles. Our opinions are not modified with respect to this matter.

Management's responsibilities for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Office of the Arizona State Treasurer's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Office of the Arizona State Treasurer's internal control. Accordingly, we express no such opinion.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Office of the Arizona State Treasurer's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the audit's planned scope and timing, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary information

Composition of Investment Pools and the Individual Investment Account schedules

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Office of the Arizona State Treasurer's financial statements. The accompanying composition of investment pools and the individual investment account schedules are presented for the purposes of additional analysis and are not required parts of the financial statements. Such information is management's responsibility and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the accompanying composition of investment pools and the individual investment account schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other information

Management is responsible for the other information included in the annual report. The other information comprises the letter from the State Treasurer and the summary of cash on deposit with treasurer but does not include the financial statements and our report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance on the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other reporting required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we will issue our report on our consideration of the Office of the Arizona State Treasurer's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Office of the State Treasurer's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Office of the Arizona State Treasurer's internal control over financial reporting and compliance.

**STATE OF ARIZONA
OFFICE OF THE TREASURER
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the State of Arizona, Office of the Treasurer (Treasurer) conform to accounting principles applicable to governmental external investment pools adopted by the Governmental Accounting Standards Board (GASB).

Reporting Entity - The External Investment Pools, Individual Investment Account, and Internal Investment Pools represent the assets held by the Treasurer as fiscal agent for the various fund types of the State of Arizona as well as political subdivisions and public entities investing in the Local Government Investment Pool (LGIP), Local Government Investment Pool – FF&C (LGIP-GOV), Local Government Investment Pool – Medium Term (LGIP-MT), Local Government Investment Pool – Medium Term FF&C (LGIP-MT GOV), Local Government Investment Pool Lehman Brothers, and the Central Arizona Water Conservation District, an Individual Investment Account.

The External Investment Pools, Individual Investment Account, and Internal Investment Pools become part of the State of Arizona's governmental, proprietary, and fiduciary fund categories at the combined statewide level.

Basis of Accounting - The financial statements of the External Investment Pools, Individual Investment Account, and Internal Investment Pools are presented on the accrual basis of accounting. Revenues or receivables are recognized when they are earned, and expenses or liabilities are recognized when they are incurred. The purchase and sale of units consists of transfers of units between different investment pools in addition to external purchases and sales transactions.

Net Position Value - The Treasurer's Investment Policy requires the following Net Position valuations. For the LGIP and the LGIP-GOV pools, the portfolio manager shall strive to maintain a Net Position Value of \$1.00 for the pool. For the LGIP-MT and LGIP-MT GOV pools, the portfolio manager does not strive to maintain a Net Position Value of \$1.00 for the pool because securities purchased have longer term maturity dates and are thus more susceptible to changing market conditions. The securities held in the Local Government Investment Pool Lehman Brothers are in Chapter 11 bankruptcy. However, there is still a market for these securities and the Net Position Value reflects the change in value from the previous fiscal year-end with the current fiscal year-end.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Arizona Endowment Trust - The Arizona Endowment Trust Fund allows external and internal participants the ability to invest assets to meet long-term objectives. Participants receive shares in the fund based on the value of the shares at time of purchase and the participants' contributions will be co-mingled with all participants in the fund. The Treasurer maintains the following internal investment pools in this fund: Pool 301 (Large Cap), Pool 303 (Mid Cap), Pool 304 (Small Cap), and Pool 305 (Fixed Income). The participants are accounted for by fund as the Arizona Endowment Trust Funds A101 – A103. Fund cost is allocated based on historical cost for each of these funds in proportion to total amounts invested in pools 301 through 305. Fund fair value is determined based on current fair value of pools 301 through 305 and is allocated based on shares for each of these funds in proportion to the total funds invested in pools 301 through 305. The Arizona Endowment Trust Funds 310 - 340 are presented in the Composition of Investment Pools and the Individual Investment Account on page 33 in the Supplemental Information section.

Allocation Method for Endowment Land Earnings Funds - The Treasurer invests and distributes Endowment Land Trust monies derived from the sale of state lands for certain state beneficiaries as required by the Arizona Constitution, Article X, Section 7. Accordingly, the Treasurer maintains the following Endowment Land Trust internal pools: The State of AZ Pool 201 (Large Cap), the State of AZ Pool 203 (Mid Cap), the State of AZ Pool 204 (Small Cap), the State of AZ Pool 205 (Fixed Income) and the State of AZ Pool 123 (ST Fixed Income). The state beneficiaries are accounted for by fund as the Endowment Land Earnings Funds P101 - P114. The Endowment Land Earnings Funds are permanent funds. Fund cost is allocated based on historical cost for each of these funds in proportion to total amounts invested in pools 201 through 205 and pool 123. Fund fair value is determined based on current fair value of pools 201 through 205 and pool 123 and is allocated based on shares for each of these funds in proportion to the total funds invested in pools 201 through 205 and pool 123. The Endowment Land Earnings Funds P101 – P114 are presented in the Composition of Investment Pools and the Individual Investment Account on pages 29 – 33 in the Supplemental Information section.

NOTE 2 – ASSETS

Deposits and Investments - Arizona Revised Statutes (A.R.S.) §§35-312 through 35-314 authorize the Treasurer to invest operating, trust, and permanent endowment fund monies in permitted investments. A.R.S. and the Treasurer's Investment Policies designed to administer the statutes restrict investments to obligations of the U.S. Government and its agencies; obligations or other evidence of indebtedness of the state and certain local government subdivisions; negotiable certificates of deposit; bonds, debentures and notes issued by entities which are U.S. dollar denominated; commercial paper issued by entities which are U.S. dollar-denominated; bankers acceptances; collateralized repurchase agreements; money market mutual funds; exchange traded funds; equities; and other securities. The investment pool or fund is designed in a manner which may not permit all such investments to be made. In accordance with the requirements of the statutes, deposits and investments at June 30, 2023 included collateralized repurchase agreements, bills, notes, and other obligations of the U.S. government and its agencies, Federal Deposit Insurance Corporation (FDIC) and negotiable certificates of deposit, corporate notes, corporate asset backed securities, corporate mortgage backed securities, commercial paper, money market mutual funds, municipal bonds, and equities of the S&P 400, S&P 500, and S&P 600 indexes (combined in the security category, equities).

The general disclosure requirements for deposit and investment policies for custodial credit risk, credit risk, concentration of credit risk, and interest rate risk are set forth in the analysis of each area below. Arizona statutes do not allow foreign investments unless the investment is denominated in U.S. dollars.

Custodial Credit Risk – Deposits and Investments

Custodial credit risk for deposits, including non-negotiable certificates of deposit, is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from an outside party. Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered.

In accordance with A.R.S. and the Treasurer's Investment Policy, deposits are held in an eligible depository with its principal place of business in the United States which is insured by the FDIC. The statute further authorizes the Treasurer to enter into an agreement with the trust department of any bank authorized to do business in this state for safekeeping and handling of securities. The safekeeping and handling of investments are conducted through a bank trust department authorized to do business in this state. Securities received by the custodian are held in the Treasurer's name in book-entry form. Also, the securities custodian is not the counterparty. Underlying collateral securities for deposits, repurchase agreements, and tri-party repurchase agreements are held by the bank trust department and pledged on behalf of the State Treasurer's Office. Deposits, repurchase agreements, and tri-party repurchase agreements on deposit in the bank that are greater than the FDIC insured amounts are collateralized at no less than 102%.

NOTE 2 – ASSETS (Cont'd)

Investments

A.R.S. and the Treasurer's Investment Policy define the types of securities authorized as appropriate investments and the conditions for making investment transactions. The securities are reported at fair value on the Statement of Net Position.

The State Treasurer's Office invests in SEC-registered investment company shares that have readily available share prices. Fair values of securities are determined using State Street prices. State Street obtains prices from independent industry recognized data vendors who provide values that are either exchange based or based on an evaluated bid. Equities are priced utilizing the primary exchange closing price. All bonds are priced using an evaluated bid, except securities with a remaining maturity of 90 days or less are priced at amortized cost (amortizing premium/accreting discount on a straight-line to maturity method). The evaluated bid is based on a compilation of primary observable market information or a broker quote in a non-active market.

There is no income from investments associated with one pool that is assigned to another pool.

As of June 30, 2023, the Treasurer's Office had the following investments:

Commercial Paper	\$ 3,144,900,366
Corporate Asset-backed Securities	278,615,831
Corporate Mortgage-backed Securities	73,488,254
Corporate Notes	5,139,877,600

NOTE 2 – ASSETS (Cont'd)

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. A.R.S. and the Treasurer's Investment Policy require that commercial paper must be rated by at least two nationally recognized statistical rating organizations (NRSRO's). Commercial paper held in Pool 5 must be of the two highest rating categories for short-term obligations when purchased. Corporate bonds, debentures, notes, negotiable certificates of deposit, and municipal bonds must carry an investment grade rating by any NRSRO. For securities of or any other interests in any open-end management type investment company or investment trust including exchange traded funds, the underlying investments must be securities which are allowable under A.R.S. There is no statute or investment policy on ratings or credit quality for obligations issued by the U.S. government or its agencies or repurchase agreements. The underlying securities for repurchase agreements are either directly guaranteed by the U.S. government (Treasury securities) or implicitly guaranteed by the U.S. Government (Agency securities).

The rating for the LGIP pool as of June 30, 2023, is AA+/S1+. The other investment pools are not rated by a NRSRO. The investments within all pools are rated, monitored, and reported monthly.

The following table presents the ratings with the greatest degree of risk for each investment type as of June 30, 2023, using Standard and Poor's rating scale:

NOTE 2 – ASSETS (Cont'd)

Although the U.S. Agency Securities listed in the table are not backed by the full faith and credit of the federal government, investors generally treat agency securities as if they have negligible credit risk. Because of the importance of the agencies in promoting public policy, there is a widespread view that the federal government would prevent an agency or government-sponsored enterprise from defaulting on its debt obligations.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. A.R.S. do not include a requirement for concentration of credit risk. The Treasurer's Investment Policy is to diversify the investment pools to minimize losses due to various circumstances, including issuer defaults; market price changes; non-earning assets; technical complications leading to a temporary lack of liquidity; or an over-concentration of assets in a specific maturity, a specific issuer, a specific geographical distribution, or a specific class of securities. The diversification policy provides that no more than five percent of the total of each pool (defined as five percent of the prior month's ending market value on the date purchased), or no more than five percent of the issues outstanding, whichever is less, shall be invested in securities issued by a single corporation and its subsidiaries/affiliates. This policy applies only to the LGIP and the LGIP Medium Term within the external investment pools, the Central Arizona Water Conservation District within the Individual Investment Account, and the State Agencies Diversified, State Operating, State Operating Liquidity, Early Childhood Development and Health Board (ECDHB), the Endowment Land Trust's fixed income pools 205 and 123, and the Arizona Endowment Trust's fixed income pool 305 within the internal investment pools. For Pools 205 and 123, any single issuer may not exceed five percent of the combined market value for both pools. Securities issued by the U.S. government, or its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities are exempt. Also exempt from this policy are bonds issued by an Agency of the State of Arizona and pre-refunded municipal bonds issued by any entity that is invested in obligations issued or guaranteed by the U.S. government or any of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities.

As of June 30, 2023, no investments in any one non-exempt issuer exceeded five percent of any pool's or pool group's investments fair value.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. A.R.S. address the maximum maturity for local government investments and maximum duration for General Fund operating money investments. The Treasurer's Investment Policy incorporates the A.R.S. limitations and sets forth various thresholds or parameters relating to interest rate risk in accordance with each investment pool's structure. The policy provides either maturity or duration limitations for various investment pools. The Treasurer manages its exposure to interest rate risk by purchasing a combination of shorter-term and longer-term investments and timing cash flows from maturities to meet projected cash flow and liquidity needs of the participants. The interest rate risk inherent in the investment pools is monitored monthly by measuring the weighted average maturity and/or duration.

Internal Investment Pools

Deposits made with the State Treasurer by State Agencies with statutory authority to invest and all General Fund monies are invested in various pooled funds. The State Agencies, the State Operating, the Permanent Endowment Land Trust pools, the Arizona Endowment Trust, and the Early Childhood Development and Health Board (ECDHB), a Separately Managed Account which meets the minimum deposit requirements and terms as set by the State Board of Investment as authorized by A.R.S. §35-326.01, are internal investment pools. The State Agencies Diversified – Pool 3 and the State Operating – Pool 10 are managed by both internal and external portfolio managers. The pools are not required to register (and are not registered) with the Securities and Exchange Commission (SEC) under the Dodd-Frank Act of 2010. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with A.R.S. §35-311.

The fair value of investments is measured on a monthly basis.

Participant shares are purchased and sold based on the Net Position Value of the shares. The Net Position Value is determined by dividing the fair value of the investment pool by the total shares outstanding.

External Investment Pools

The Local Government Investment Pool (LGIP), Local Government Investment Pool - FF&C (LGIP-GOV), Local Government Investment Pool - Medium Term (LGIP-MT), and Local Government Investment Pool – Medium Term FF&C (LGIP-MT GOV) are external investment pools. The pools are not required to register (and are not registered) with the SEC under the Dodd-Frank Act of 2010. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with A.R.S. §35-311.

The LGIP's share of the Lehman Brothers bond value of \$39.4 million was transferred in September of 2008 to the Local Government Investment Pool Lehman Brothers due to Lehman Brothers filing for Chapter 11 bankruptcy protection on September 15, 2008. The transfer was made to provide for the decline in fair value of the Lehman Brothers securities held by the LGIP.

**STATE OF ARIZONA
OFFICE OF THE TREASURER
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023**

NOTE 2 - ASSETS (Cont'd)

In December of 2011, the United States Bankruptcy Court for the Southern District of New York entered an order confirming the Modified Third Amended Lehman Brothers Joint Plan of Liquidation. During the current year, approximately \$12,000 was received as payout of funds being held by the Indenture Trustee for Lehman Brothers securities. The payout received was allocated to participants based on the participant's share balance and then transferred to the LGIP Pool 5 reducing the carry or cost basis in the Local Government Investment Pool Lehman Brothers. As of June 30, 2023, the carry or cost basis and the fair value for the Local Government Investment Pool Lehman Brothers were \$21.0 million and \$39,000, respectively. There was a distribution to participants in June 2023 for receipts from the trustee during fiscal year 2022-23. Future distributions are generally expected every year thereafter. The remaining amount to be recovered is unknown.

The fair value of investments is measured on a monthly basis.

Participant shares are purchased and sold based on the Net Position Value of the shares. The Net Position Value is determined by dividing the fair value of the investment pool by the total shares outstanding.

The State Treasurer's Office does not contract with an outside insurer in order to guarantee the value of the investment pools or the price of shares redeemed. The State Treasurer's Office only makes investments that are registered with the SEC, issued directly by the U.S. Treasury and federal agencies, from financial institutions which offer FDIC insured investments, or any other securities which are authorized under Arizona Revised Statutes and the Arizona State Treasurer's Office Investment Policy Statement, as approved by the State Board of Investment. The State Treasurer's Office is not an involuntary participant in another entity's external investment pool. The State Treasurer's Office is not aware of any involuntary participation in the pools. Participants meeting the criteria established under A.R.S. §35-316 are eligible to participate in the pools and are not required to disclose the reason for requesting the account.

Individual Investment Account

The Central Arizona Water Conservation District (CAWCD) is reported as an individual investment account.

NOTE 3 - MONIES ON DEPOSIT

The State Treasurer holds monies for state agencies, other political subdivisions (primarily counties, cities, and towns), and public entities. The unaudited detail of those monies, as recorded on the Arizona Financial Information System (AFIS) at June 30, 2023, is set forth in the supplemental information section titled, "Summary of Cash on Deposit with Treasurer". The operating fund balance (at cost) is \$10.4 billion, which includes the general fund's share (at cost) of \$3.8 billion.

The difference between the amount presented in the summary and total liabilities and net position equity reported on the Statement of Net Position is the result of timing differences and other reconciling items.

NOTE 4 – SECURITIES LENDING PROGRAM

The State Treasurer is permitted under A.R.S. §§35-313 and 35-324 to enter into securities lending transactions. The State Treasurer's custodial bank manages the securities lending program through a contractual agreement. During March 2023 the Treasurer temporarily suspended the securities lending program and all loaned securities were recalled by the end of April 2023. As of June 30, 2023, the State Treasurer had no securities on loan.

NOTE 5 – CUSTODIAL SECURITIES

In accordance with A.R.S., various state agencies deposit securities with the Treasurer for safekeeping. The following agencies had securities in safekeeping with the Treasurer in the form of U.S. government and agency securities, certificates of deposit, letters of credit, municipal and corporate bonds, money market mutual funds and cash, and surety bonds at June 30, 2023.
